DETAILED ACTION

Drawings

1. The drawings were received on 9/22/03. These drawings are accepted.

Response to Arguments

1. Applicant's arguments, see Amendment, filed 12/20/05, with respect to claims 12-27 have been fully considered and are persuasive. The rejections of claims 12-27 have been withdrawn.
2. The following is an examiner's statement of reasons for allowance: Claims 12-30 are allowed over the prior art of record. Claims 12-23, 28-30 and 24-27 are renumbered 1-19 respectively. The prior art of record does not teach nor suggest "an acquiring unit constructed to acquire from the external apparatus identification information which specifies one of the plurality of device control languages with a highest priority; and a selection unit constructed to select from a plurality of programs a program corresponding to the device control language specified by the identification information acquired by said acquiring unit".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
